

Slider Configuration R14 Seat-belted Seat

CHAPMAN

EST. 1901

These sliders can be fitted to one of two Chapman fixed plinths designed specifically for the R14 type seat-belted seat. If these are fitted to Optare vehicles, we have supplied the seats to them without plinths and you will need to use the bus builder's own fixing points for these sliders.

This slider set cannot be fitted to any other Chapman seat type and are only available with 160mm travel.
